WHAT NEXT – YOUR ROLE IS VITAL

We urge all Rotarians to take meaningful steps toward the elimination of cervical cancer.

1. Start a conversation in your club/district about what you can do to support the Authorities.
2. Draft your proposals and email them to us. We will connect you with the right partner to help transform your ideas into an evidence-based, impactful programme.

Together, we can make a lasting difference.

This appeal is on behalf of the Rotary Fellowship of Healthcare Professionals. We are a Rotary Fellowship with Action.

Let's unite for a future free from cervical cancer! I look forward to hearing from you.
